Blending the beauty of great design with the practicalities of modern living

The design of each of the four low rise apartment buildings that make up Dianella Apartments reflects their natural surroundings and the architect's vision for this unique location. Each building features its own unique design and feel and is named according to a botanical identity but remains interconnected to provide a sense of continuity and interaction.

***'Flavum'** is home to those on the property's south west wing while **'Frangipani'** offers a poolside aspect and features the trees that bare its name in the ground floor landscaping. **'Eureka'** overlooks the communal herb garden and features Eureka Lemon trees among its plantings. **'Magnolia'** enjoys a north west aspect with the themes united in a colourful reflection of nature.*

Embracing the conventions of contemporary yet elegant design with spacious balconies, each apartment boasts a seamless flow from the open plan kitchen and living space out to the external areas that promote an embrace of Perth's abundant sunshine and natural light. Blending functionality with form, each apartment caters to the demands of functionality of the individual resident without compromising on the basics of clever design. Shared communal spaces have been thoughtfully conceived to promote everyday resident interactions and a sense of community from the extensive entry lobby to the residents' games room and lounge and beyond to the many landscaped spaces. Unique to Dianella and offering a lifestyle not seen in this location, Dianella Apartments blends modern architectural design with the beauty of the natural environment. Deliberately low rise and designed to blend effortlessly with the existing streetscape, this is a unique opportunity to invest in a new way of life in the heart of Dianella.

Revel in residential luxury

The sleek, contemporary design of your apartment creates a seamless feel as each room flows effortlessly into another. The open-plan kitchen, living area and balcony are designed to capitalise on Perth's famous year-round sunshine inviting in an abundance of natural light and promoting a seamless movement from indoors to out.

Dianella Apartments range of one, two and three-bedroom configurations offer diversity of choice to allow you to choose the design that best suits your individual lifestyle and taste. Using classic neutral tones and finishes that will stand the test of time, the unique blend of colour, texture and material ensures your living space remains contemporary, functional and stylish years beyond your purchase.

Large master bedrooms with built in robes have been conceived to maximise form and function and chic ensuite bathrooms perfectly complement the contemporary, resort style aesthetic. Kitchens feature European-style appliances and reconstituted stone bench tops while living areas are hybrid plank flooring for added comfort, adding a luxurious feel to your new abode.

Flavum Building

The Flavum building is for those who want all the little bonus extras, including exclusive lift access to all four floors & one of two lobby entrances. Flavum apartments are bordered with larger trees which provide shade and beauty to complement the functional design.

Frangipani Building

As the name suggests, the air around this building will be infusedwith the fragrance of the native Frangipani trees that surround it. This building is unique as it houses the gym, sauna, residential lounge and games room.

Eureka Building

Nestled in the heart of the complex, Eureka borders the shared swimming and cabana space. Boasting views of the local greenery, loggia gardens and communal area, this building will feature Eureka lemon trees planted in abundance and borders the communal herb garden.

Magnolia Building

The Magnolia building features its namesake beautiful magnolias. Boasting a little of everything, these apartments have either street frontage, pool facing area or general greenery to overlook. The choice is yours. This building contains one of the two residential lobbies, and exclusive lift access.

H1

3 Bed • 2 Bath

Unit plans are typical. Refer to overall plans for location, orientation, variations, balcony design & for columns located on balconies / courtyards.

General notes

1.The apartment areas shown here are approximate and are measured to : The outside face of external walls • The outside face of walls between apartment & lobby. • The middle of party walls. 2. These area measurements are 'architectural measurements' as defined in the contract conditions and are different from 'survey dimensions' also defined in the contract conditions. 3. Shape and configuration of balconies, doors, windows, ducts and columns may differ from those illustrated. 4. Refer to detailed apartment layouts included in the sales contract document for variations to layout &balconies. 5. ▭ Indicates wall mount split unit air-conditioner. 6. ▭ Indicates A/C condenser + screen.
