Double Pleat

Sheers often the look of a window giving your room a more welcoming appeal as well as reducing glare and providing a degree of daytime privacy.

The Wave "2" Heading (top part of the curtain) is one of the most modern and versatile designs on offer.

The Wave "2" system uses more fabric than a double pleat as well as requiring an engineering grade tracking system.

This system allows for tracks to be bent and joined multiple times yet still providing an ultra-smooth operation as well as allowing the Wave Sheers to be moved in multiple directions. For the best light control, a second product should be fitted behind the Sheers.

Options include Blockout Rollers, Basic Linings or Textured Coloured Linings which provide an extra depth of colour to the Sheers.
