Assisting Perth's finest Interior Designers with efficient cost effective and knowledgeable service producing countless first class installations in Homes, display homes, retail outlets, restaurants and hotels. "Wallpaper is making a comeback" is a phrase I hear every week, explained Stu.

Since arriving from the UK in 2007 with 25 years decorating experience Stu has made the wallpaper installation process his primary business and in so doing discovered the many intricacies involved with a successful project, whether it's a feature bedroom wall or an entire house fitted with grass cloth wallpaper. The many different wallpapers require individual adhesives and hanging methods all of which only become known with the experience Stu has.

"It's not that difficult but it is very easy to get wrong"

With the cost and time taken of wallpaper being delivered to our beautiful corner of the world it is vital to have confidence in a faultless installation with the correct quantities. Drop MrWallpaper an email with your wall dimensions for a free installation quote with rolls required.
